

Indian Security/Civil Forces

Relfo foundation's prime concern is to generate fund for the families of our martyred brave soldiers belonging to all the forces. We have an honest intention to help the kids of the soldiers for higher studies and help their families having all the comforts of life. Our prime aim is to fulfill our responsibility as a responsible organization, and pay our true respects to our Forces. We arrange funds for taking care of the studies and further requirements of every soldier's children. Our motive behind this, is to lend a supportive hand in favor of the families of our martyred soldiers. Though we know that the government do provides all the amenities for the same, we tend to perform our responsibilities as a true mark of respect every citizen owes towards their soldiers and Civil forces.
