

# Skill Development

Rupee one foundation strongly focuses on pushing our young talents to achieve new heights of success by focusing on skill development programmes. Developing a strong personality, communication talent, professional potential, and quality character are all the elements of initiating a perfect skill development. Our foundation makes sure every child and student is familiar with the basic skills helpful for making them outstanding. We prepare skill development programmes and approach the schools, colleges, corporations and professionals sectors to make everyone aware of it in its purest form. And all these can happen with just ₹1 contribution by all the natives in our country! A small statistics, if everyone from our country gives away ₹1 from their daily wages, then it makes 125 crores a day! You can yourself think what a big amount will come and how well we will be able to help the students to get world-class skill development courses, which can help them get even higher job postings!
